Dear Mayor Hauser:

Our names are Linda and Gary Smith, we live on Waltz Sub Tract, on the North end of Silver Lake, next to the Outlet Bridge. We are writing this letter in regards to the conditions on our end of the Lake, as I am sure you are all aware of.

Our tract consist of 10 properties, which in total covers 800 feet of water frontage. Every homeowner deals with the same problems, being that the sediment has built up to the point where no one can get their boats out onto the lake and are forced to rent space for their boats, so they can enjoy a ride onto Silver Lake.

We bought this property in 1990, and decided to relocate from the Village in 1998, there was great fishing and boating at that time and even though we are at the farther end of the tract, we did enjoy a little of the Lake view. Now we not only can't get out onto the lake, but also have to smell the sediment that has built up and see the weeds growing 5-6 ft. tall in front of our properties, which draw mosquitos and other insects to make it almost impossible to sit out on our Lakeside front yards.

Silver Lake is a valuable asset to all the local businesses, drinking water source to several towns, and could be a valuable tourist site, being so close to Letchworth Park, if it could only be dredged out and taken care of. I am hoping with everyone working on this project to see some results progressing to preserve our Great Asset to not only the Town and Village of Perry ,but also Castile and the surrounding towns.

On behalf our Tract negatively effected with the current condition of Silver Lake, please take into consideration the benefits we have addressed to dredging. If something isn't done to preserve this Lake everyone , including tourists, Village and Town of Perry, Castile, and all residents who are drawing water from the Lake , will loose.

Thank you for taking the time to read my letter of concerns, pertaining to the North end of Silver Lake.

Regards,

Linda and Gary Smith
